# Pitchblack Resources

## Project Highlights

### Advanced Projects

#### DIVISION MOUNTAIN

A high-quality bituminous coal project (NI 43-101 compliant resource of 52 million tons) Exploration licences covering 560,000 acres.

#### IGOR & PEEL REGION

IOCG Olympic dam style property with potential for significant Cu-U-Au mineralization.

Hole IG2007-22: 140 meters of 0.76% Cu, 0.042% U<sub>3</sub>O<sub>8</sub> including 7 meters at 7.37% Cu, 0.417% U<sub>3</sub>O<sub>8</sub>, 0.33 g/t Au and 6.5 ppm Ag.

### Other Exploration Projects

#### MIKE LAKE

Dynamite claims located within the prolific Tintina Gold Belt

#### MUCHO

Large (1900m by 500 m) silver-zinc-lead anomaly chip samples up to 312 g/t Ag, 5.39% Pb, 2.58% Zn, 3.46% Cu and 7 g/t Au.

#### SHUT/ANGUS

Vein material assayed up to 126.9g/t Au.

**Diverse Property Portfolio in Yukon – seeking partners to advance exploration and development**

## Pitchblack is a Canadian Company with a diverse range of projects in Yukon

### Assets

- Several properties in Yukon including coal, uranium, gold, and base metal targets
- Significant land positions
- Properties in advanced and greenfield stages

### Advanced Exploration

- Pitchblack Resources completed advanced exploration on a coal basin just north of Whitehorse and aggressively pursued IOCG Olympic dam style Cu-U-Au deposits in northeastern Yukon

### Exploration

- Acquired several base and precious metal deposits that are yet to be investigated but are located in favorable geological settings

### Objective

- Secure joint venture and option agreements to advance exploration efforts on the base and precious metal properties

## Property Available for Acquisition or Joint Venture

### Division Mountain

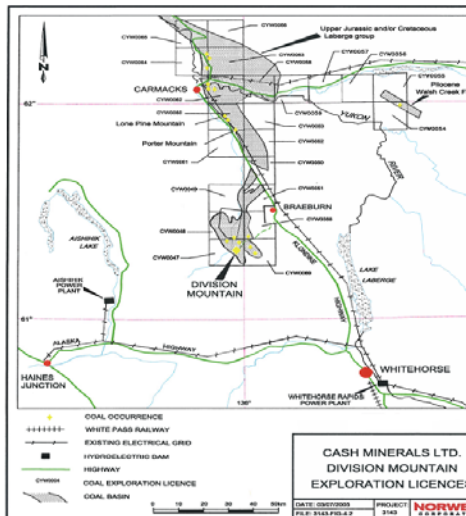

The Project consists of a high quality bituminous coal deposit with very low sulphur content, with a NI 43-101 Resource of approximately 52 million tonnes located in mine friendly Yukon, Canada. The deposit, accessible by road and in close proximity to Yukon's electrical grid system, offers the potential to serve the territory's energy needs through a mine-mouth power generation project using clean coal technologies.

### Tenure and Exploration Potential

Exploration licences covering approximately 560,000 acres in a region with known coal occurrences in an extensive and under explored basin with identified potential for significant reserve expansion.

### Resources

43-101 compliant resource :38,553,505 measured and 13,041,449 Indicated tonnes of coal average coal quality: 5159 cal/g calorific value, 2.8% residual moisture, 27.6% ash, 26.3% volatile matter, 43.7% fixed carbon and 0.45% sulphur.

## Management

**John Taggart, MBA**  
President & CEO

**Gregory Duras, CGA, CP**  
Chief Financial Officer

**Christine Gallo**  
Legal Counsel

**Kevin Brewer, P.Geo, MBA,**  
B.Sc (Hons)  
Manager-Yukon

## Board of Directors

**Daniel Nocente**  
Chairman

**John Taggart, MBA**  
President & CEO

**Bill Clarke**  
Director

**Geoffrey Scott Moore**  
Director

## Share Structure

**Shares Outstanding (Fully Diluted):**  
22,586,750

**Market Cap:**  
C\$1.99M
